

UBM (Corporation "Ukrbudmaterialy") is an industrial investment Ukrainian group specializing in investments attraction in the building materials production branch and exploitation of raw materials for the purposes of building industry.

Experience

By adopting experience from the predecessor of UBM, a State Corporation of Building Materials with its longstanding history at the Ukrainian building materials market we were able to keep the traditions of the company and save our high-qualified staff. Skills and experience of our key professionals and more than 15 years of work promote stable development of the company and its recognition at the international market.

Focus

- UBM basic focus is the development and implementation of an investment projects involving external and internal funds;
- improvement of our current projects with a purpose to increase its competitiveness and search of new ways of development.

Mission

- to provide our clients with high-yield investments in the building materials and raw materials exploitation branch;
- optimization of the risks based on our own expert assessment and market study;
- development of long-term mutual-benefit partnership
